

TURNKEY DELIVERY

Turnkey Implementation of Power Distribution

Turnkey delivery reduces interface risk by aligning engineering, procurement, fabrication, installation, startup, and hando...

THE ENGINEERING POINT

Engineering decisions made early prevent expensive field problems later.

WHAT YOU'LL TAKE AWAY

1

Lock interfaces early

Define scope boundaries, one-lines, equipment data, controls, site conditions, and responsibilities.

2

Manage long-lead decisions

Release equipment and drawings in the sequence that protects the project schedule.

3

Commission to the design intent

Verify settings, controls, testing, documentation, and owner training before turnover.

BUILT FOR Owners • EPCs • Contractors • Project Teams
